Trade-marks Journal

2017-03-01 — Vol. 64 No. 3253

Canada

Trade-marks Journal

Vol. 64 No. 3253

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Authorisation For Use

A letter of consent from The Governing Council of the University of Toronto is of record.

SERVICES

(1) Consulting services to employers in the field of offering medical treatment support programs to employees as an employee benefit, in particular consulting services which enable the employer to offer treatment decision support programs to eligible individuals, namely, in the form of offering eligible individuals free-of charge access to cancer treatment decision support programs and services.

(2) Data collection for analytical purposes, in particular the collection of mathematical and statistical data, clinical data, genomic data and data of clinical studies relating to the employees' clinical responses to drug treatments and treatment regimes; providing scientific advice in the fields of cancer biology, cancer treatment, pharmaceutical side effects, genome analysis, cancer medicine and translational medicine; providing scientific analysis and analysis services in the field of next generation sequencing (NGS), namely, the analysis and interpretation of genomic data obtained from cancer patients, in particular genomic data obtained from employees; providing scientific information on employees' genomic changes that contribute to a unique cancer disease; providing research information about drug safety and drug compatibility in relation to cancer therapy and the treatment of individuals, namely employees; scientific consulting services in the fields of pharmaceuticals and genetics, in particular conducting scientific research in drug safety and drug compatibility studies in the field of cancer treatment therapy for others; electronic storage of medical data and information for physicians and healthcare professionals; providing an on-line, non-downloadable computer platform for purposes of storing and providing information about an individual's cancer profile and genomic changes to enable physicians and healthcare professionals to optimize treatment in clinical practice.

(3) Medical consulting services in form of providing disease treatment decision support services to employees or their treating physicians which enable employers and their affiliates to offer such treatment decision support services as a service to their employees, family members and spouses, namely, in form of an employee benefit to eligible individuals; medical consulting services in form of disease treatment decision support services provided by a company and other employer to its employees, namely the provision of state of the art treatment options for diseases, in particular, in case of a cancer disease, in particular for supporting cancer treatment options; cancer genomic and molecular medical testing, in particular by using next generation sequencing methods that

utilizes the analysis of genomic changes by next generation sequencing of DNA samples provided by and derived from individuals participating in the employees´ benefit program; collection and analysis of cancer-associated genetic and treatment information, for the purposes of providing medical treatment and diagnosis for individuals, namely employees; medical services provided by an employer to its employees whereby the employer will offer to make available disease treatment decision support services in case of a disease, in particular a cancer disease, to its employees and to the employees´ respective physicians in charge or other health care providers.

Goods

Class 06

(1) Adaptors for hoses, namely couplings for connecting fire hoses to each other; metal nozzles for branchpipes and hose valves for delivering a solid jet; crimping rings for securing fire hose couplings; threaded adapter rings for changing jet diameter; caps for sealing fire hose couplings; metal caps for hose ends; metal clamps; plastic clamps; clamps, namely mounting systems for monitors and eductors, namely tripods for fire hose nozzles; discharge head nozzles made of metal for protecting tanks containing flammable gases or liquids; metal water pipe valves for fire-extinguishing apparatus and instruments; keys other than for machines, namely wrenches, wrenches for US couplings, hydrant wrenches, spanner wrenches, head wrenches, metal coupling wrenches; clappered siamese for joining several fire hoses and enabling automatic closure in case of a break in the water supply; metal siamese for ducting, namely metal clappered siamese for joining several fire hoses and enabling automatic closure in case of a break in the water supply; metal fastening collars for hoses; metal clamps for hoses; metal collars for hoses; dry standpipes namely standpipes fed by pumps for supplying hoses operated by firefighters, building parts, namely wet standpipes connected to tanks for supplying fire hoses; metal flange connectors for hoses; connectors for hose ends; metal elbows : elbows for carrying hoses, anti-recoil elbows, swivel elbows, valves, namely apparatus for connecting onto a hydrant for fitting two hoses; couplings other than for machines, namely API couplings for vapour collection; metal couplings for gravity drainage ensuring the connection between an API adapter and an unloading hose; non-return valves other than for machines, namely apparatus connected to piping and used for charging or discharging; metal strainers with or without return valves, and metal strainers, namely filter-equipped apparatus, used at the end of a fluid suction hose; dividers, namely mechanical joints operated manually or not, with one inlet and several outlets for conducting and distributing fluids, namely dividers, namely mechanical connectors operated manually or not, with one inlet and several outlets for conducting and distributing fluids, without shutoff, dividers with shutoffs, namely mechanical connectors operated manually or not, with one inlet and several outlets for conducting and distributing fluids, dividers with flywheel valves, namely mechanical connectors operated manually or not, with one inlet and several outlets for conducting and distributing fluids, three-way dividers, namely mechanical connectors operated manually or not, with one inlet and several outlets for conducting and distributing fluids, dividers, namely mechanical connectors operated manually or not, with one inlet and several outlets for conducting and distributing fluids, with ball valves, dividers with flywheel valves, namely mechanical connectors operated manually or not, with

one inlet and several outlets for conducting and distributing fluids; metal fastening components, namely metal screws; rewinders, namely apparatus for storing and using fire hoses; hose holders, namely holders for storing lengths of fire hose; metal branchpipes designed to be assembled with conical smooth bore tips or nozzle shutoffs to form a hand nozzle; gaskets for fire hose couplings; metal joints, namely metal hose joints; crimping ferrules for securing couplings on fire hoses; two- or three-piece metal collars for hoses for couplings on fire hoses; metal hose fittings, , including metal collars for hoses, metal elbows for hoses; parts and fittings for the aforesaid goods, namely constituent parts for fire hoses, sealing gaskets for couplings and fire hoses; metal coupling parts for hoses; metal T-wyes, namely dividers without shutoffs, for splitting a water supply into several outlets, metal adapter couplings for changing jet diameter, and metal hose couplings for connecting fire hoses to each other; metal tube fittings, namely couplings for connecting the hydraulic accessories of fire hoses to each other; metal couplings, namely Keyser couplings for connecting to hydrants; metal couplings, namely water supply elbows for modifying the orientation of the flow with no pressure loss, metal ventilation couplings for ventilation and for discharging fumes and smoke; metal swivel couplings for facilitating the connection of two fixed couplings and preventing the twisting of hoses; stream shapers for measuring fluids and changing flow rates; metal pressure regulators, namely apparatus for protecting equipment against overpressure and waterhammers; metal industrial containers and tanks for storing and transporting solid, liquid, gaseous, and liquified matters, metal containers, metal fluid storage tanks, metal drums, metal reservoirs, metal barrels; metal tanks for water and extinguishing agents for installation in fire-extinguishing apparatus and instruments; metal valves; nozzle shutoffs, nozzles, dry and wet standpipe shutoffs, namely nozzle shutoffs that form a hand nozzle with the addition of a smooth bore tips; non-mechanical metal rewinders for hoses; interlinked metal pipes for water transportation used in fire-extinguishing apparatus; metal pipes, namely metal branchpipes, pipes and tubes of metal for transferring liquids and gases, fire hoses; hoses with metal flanges, namely metal gutter pipes; hose fittings, namely metal hose clamps; metal crossover pipes, namely metal crossover pipes for pipelines; couplings; clips; metal branchpipes; metal valves other than for machines, namely automatic valves; gated valves, butterfly valves, and flywheel valves, namely valves for stopping the supply of water, and non-return valves made of metal.

(2) Adaptors for hoses, namely couplings for connecting fire hoses to each other; metal nozzles for branchpipes and hose valves for delivering a solid jet; crimping rings for securing fire hose couplings; threaded adapter rings for changing jet diameter; caps for sealing fire hose couplings; metal caps for hose ends; metal clamps; plastic clamps; clamps, namely mounting systems for monitors and eductors, namely tripods for fire hose nozzles; discharge head nozzles made of metal for protecting tanks containing flammable gases or liquids; metal water pipe valves for fire-extinguishing apparatus and instruments; keys other than for machines, namely wrenches, wrenches for US couplings, hydrant wrenches, spanner wrenches, head wrenches, metal coupling wrenches; clappered siamese for joining several fire hoses and enabling automatic closure in case of a break in the water supply; metal siamese for ducting, namely metal clappered siamese for joining several fire hoses and enabling automatic closure in case of a break in the water supply; metal fastening collars for hoses; metal clamps for hoses; metal collars for hoses; dry standpipes namely standpipes fed by pumps for supplying hoses operated by firefighters, building parts, namely wet standpipes connected to tanks for supplying fire hoses; metal flange connectors for hoses; connectors for hose ends; metal elbows : elbows for carrying hoses, anti-recoil elbows, swivel elbows, valves, namely apparatus for connecting onto a hydrant for fitting two hoses; couplings other than for machines, namely API couplings for vapour collection; metal couplings for gravity drainage ensuring the connection between an API adapter and an unloading hose; non-return valves other than for machines, namely apparatus connected to piping and used for charging or discharging; metal strainers with or without return valves, and metal strainers, namely

filter-equipped apparatus, used at the end of a fluid suction hose; dividers, namely mechanical joints operated manually or not, with one inlet and several outlets for conducting and distributing fluids, namely dividers, namely mechanical connectors operated manually or not, with one inlet and several outlets for conducting and distributing fluids, without shutoff, dividers with shutoffs, namely mechanical connectors operated manually or not, with one inlet and several outlets for conducting and distributing fluids, dividers with flywheel valves, namely mechanical connectors operated manually or not, with one inlet and several outlets for conducting and distributing fluids, three-way dividers, namely mechanical connectors operated manually or not, with one inlet and several outlets for conducting and distributing fluids, dividers, namely mechanical connectors operated manually or not, with one inlet and several outlets for conducting and distributing fluids, with ball valves, dividers with flywheel valves, namely mechanical connectors operated manually or not, with one inlet and several outlets for conducting and distributing fluids; metal fastening components, namely metal screws; rewinders, namely apparatus for storing and using fire hoses; hose holders, namely holders for storing lengths of fire hose; metal branchpipes designed to be assembled with conical smooth bore tips or nozzle shutoffs to form a hand nozzle; gaskets for fire hose couplings; metal joints, namely metal hose joints; crimping ferrules for securing couplings on fire hoses; two- or three-piece metal collars for hoses for couplings on fire hoses; metal hose fittings, , including metal collars for hoses, metal elbows for hoses; parts and fittings for the aforesaid goods, namely constituent parts for fire hoses, sealing gaskets for couplings and fire hoses; metal coupling parts for hoses; metal T-wyes, namely dividers without shutoffs, for splitting a water supply into several outlets, metal adapter couplings for changing jet diameter, and metal hose couplings for connecting fire hoses to each other; metal tube fittings, namely couplings for connecting the hydraulic accessories of fire hoses to each other; metal couplings, namely Keyser couplings for connecting to hydrants; metal couplings, namely water supply elbows for modifying the orientation of the flow with no pressure loss, metal ventilation couplings for ventilation and for discharging fumes and smoke; metal swivel couplings for facilitating the connection of two fixed couplings and preventing the twisting of hoses; stream shapers for measuring fluids and changing flow rates; metal pressure regulators, namely apparatus for protecting equipment against overpressure and waterhammers; metal industrial containers and tanks for storing and transporting solid, liquid, gaseous, and liquified matters, metal containers, metal fluid storage tanks, metal drums, metal reservoirs, metal barrels; metal tanks for water and extinguishing agents for installation in fire-extinguishing apparatus and instruments; metal valves; nozzle shutoffs, nozzles, dry and wet standpipe shutoffs, namely nozzle shutoffs that form a hand nozzle with the addition of a smooth bore tips; non-mechanical metal rewinders for hoses; interlinked metal pipes for water transportation used in fire-extinguishing apparatus; metal pipes, namely metal branchpipes, pipes and tubes of metal for transferring liquids and gases, fire hoses; hoses with metal flanges, namely metal gutter pipes; hose fittings, namely metal hose clamps; metal crossover pipes, namely metal crossover pipes for pipelines; couplings; clips; metal branchpipes; metal valves other than for machines, namely automatic valves; gated valves, butterfly valves, and flywheel valves, namely valves for stopping the supply of water, and non-return valves made of metal.

Class 07

(3) Machine coupling and transmission components except for land vehicles; washing apparatus, namely apparatus for washing fire hoses; mechanical reels for hoses; mechanical reels for fire vehicles enabling the storage and use of hoses; mechanical rewinders for hoses, namely electric reels for fire vehicles enabling the storage and use of hoses; filters for protecting hydraulic accessories against pebbles, machine, motor and engine parts, namely strainers; washers, fire hoses; machines for binding couplings on fire hoses; crimping tools for using pressure to flatten crimping rings mounted on hoses, namely machines for crimping couplings on hoses with crimping

rings and ferrules; machines for mixing water with another liquid for creating extinguishing materials , such as fire-extinguishing foam; suction machines for industrial use; machine, motor or engine parts, namely air suction machines; drainage machines, namely pumps, ejectors, turbopumps, hydro-ejectors; mandrels; motors and engines except motors and engines for land vehicles, namely hand tool motors, electric motors for machines, motors and engines for industrial machinery; hydraulic motors and engines, namely motors, pumps, turbine engines, and turbopumps, namely turbopumps for pumping water from one place to another; machine parts, namely pressure regulators; turbines other than for land vehicles, namely pump impellers, steam turbines; machine parts, namely butterfly valves and flywheel valves for controlling the flow of liquids and gases; electric telescopic tubes for nozzles; manual telescopic tubes for nozzles; hydraulic actuators, namely apparatus enabling a monitor to carry out horizontal sweeping movements.

(4) Machine coupling and transmission components except for land vehicles; washing apparatus, namely apparatus for washing fire hoses; mechanical reels for hoses; mechanical reels for fire vehicles enabling the storage and use of hoses; mechanical rewinders for hoses, namely electric reels for fire vehicles enabling the storage and use of hoses; filters for protecting hydraulic accessories against pebbles, machine, motor and engine parts, namely strainers; washers, fire hoses; machines for binding couplings on fire hoses; crimping tools for using pressure to flatten crimping rings mounted on hoses, namely machines for crimping couplings on hoses with crimping rings and ferrules; machines for mixing water with another liquid for creating extinguishing materials , such as fire-extinguishing foam; suction machines for industrial use; machine, motor or engine parts, namely air suction machines; drainage machines, namely pumps, ejectors, turbopumps, hydro-ejectors; mandrels; motors and engines except motors and engines for land vehicles, namely hand tool motors, electric motors for machines, motors and engines for industrial machinery; hydraulic motors and engines, namely motors, pumps, turbine engines, and turbopumps, namely turbopumps for pumping water from one place to another; machine parts, namely pressure regulators; turbines other than for land vehicles, namely pump impellers, steam turbines; machine parts, namely butterfly valves and flywheel valves for controlling the flow of liquids and gases; electric telescopic tubes for nozzles; manual telescopic tubes for nozzles; hydraulic actuators, namely apparatus enabling a monitor to carry out horizontal sweeping movements.

Class 09

(5) Fire-extinguishing materials, namely water-projection apparatus, namely fire nozzles for extinguishing fires by spraying water; fire-extinguishing materials, namely apparatus and instruments for making foam; scientific, nautical, signalling, checking (supervision), life-saving, and teaching apparatus and instruments, namely scientific prisms, marine compasses, magnetic compasses for surveying, emergency warning lights, optical inspection apparatus for analyzing defects on surfaces of printed circuits and wafers, optical inspection apparatus for inspecting circuits used in cellular telephones, digital cameras, video cameras, camcorders, video tape recorders, computers, slide projectors; fire engines; strainers with non-return valves for fire pumps; fire beaters and fire bats for extinguishing fires; pressure indicator plugs for valves; water branchpipes, water-foam branchpipes, powder-foam branchpipes, powder branchpipes, foam generators; electronic flowmeters for measuring the flow and pressure of fluids; flowmeters for measuring, indicating, recording, and controlling the flow of fluids; foam-generating fire-extinguishing materials, namely foam chambers; constituent parts for fire nozzles and equipment, namely diffusers; constituent parts for fire nozzles and equipment, namely nozzle tips, reducers; hydro-ejectors; dosing devices, namely metering devices for changing fluid suction percentage; rescue ladders; electronic signal transmitters; fire-extinguishing apparatus; measuring instruments, pressure gauges; fire nozzles; wildland nozzles, high-pressure nozzles, powder nozzles, foam nozzles, motorized monitors, remotely controlled motorized monitors; firefighting

materials and equipment, namely hand nozzles, monitors, connectors and hydraulic accessories for fire nozzles; fire pumps; stirrup pumps; fire-extinguishing materials, namely portable foam units, namely foam projection apparatus and instruments; apparatus and instruments for the horizontal and vertical sweeping of nozzles, namely oscillators; pressure indicator plugs for metal valves; fire hoses.

(6) Fire-extinguishing materials, namely water-projection apparatus, namely fire nozzles for extinguishing fires by spraying water; fire-extinguishing materials, namely apparatus and instruments for making foam; scientific, nautical, signalling, checking (supervision), life-saving, and teaching apparatus and instruments, namely scientific prisms, marine compasses, magnetic compasses for surveying, emergency warning lights, optical inspection apparatus for analyzing defects on surfaces of printed circuits and wafers, optical inspection apparatus for inspecting circuits used in cellular telephones, digital cameras, video cameras, camcorders, video tape recorders, computers, slide projectors; fire engines; strainers with non-return valves for fire pumps; fire beaters and fire bats for extinguishing fires; pressure indicator plugs for valves; water branchpipes, water-foam branchpipes, powder-foam branchpipes, powder branchpipes, foam generators; electronic flowmeters for measuring the flow and pressure of fluids; flowmeters for measuring, indicating, recording, and controlling the flow of fluids; foam-generating fire-extinguishing materials, namely foam chambers; constituent parts for fire nozzles and equipment, namely diffusers; constituent parts for fire nozzles and equipment, namely nozzle tips, reducers; hydro-ejectors; dosing devices, namely metering devices for changing fluid suction percentage; rescue ladders; electronic signal transmitters; fire-extinguishing apparatus; measuring instruments, pressure gauges; fire nozzles; wildland nozzles, high-pressure nozzles, powder nozzles, foam nozzles, motorized monitors, remotely controlled motorized monitors; firefighting materials and equipment, namely hand nozzles, monitors, connectors and hydraulic accessories for fire nozzles; fire pumps; stirrup pumps; fire-extinguishing materials, namely portable foam units, namely foam projection apparatus and instruments; apparatus and instruments for the horizontal and vertical sweeping of nozzles, namely oscillators; pressure indicator plugs for metal valves; fire hoses.

Class 17

(7) Raw rubber, chlorinated rubber, silicone rubber, hydrochlorinated rubber, natural rubber; composite plastics, namely firefighting materials made of composites, namely fire nozzles, dividers for splitting a water supply; composite plastic materials made from glass fibre, namely unprocessed plastics in powder, liquid, or paste form; rubber valves; caps for plugging fire hose couplings; non-metal hose couplings; non-metal gaskets, pipe gaskets; firefighting materials and equipment, namely hand nozzles, monitors, connectors and hydraulic accessories for fire nozzles; non-metal pipes, namely ceramic drain pipes, non-metal drain pipes, concrete pipes; products made of semi-processed plastics, namely plastic sheets for industrial and manufacturing use, plastics for modelling, plastic pellets for packaging; watering hoses; flexible pipes, not of metal namely flexible pipes as parts of sink, shower and bath plumbing installations; fire hose with smooth interior surfaces (smooth bore), namely smooth bore fire hoses that can be equipped with fittings for the suction and discharge of fluids; semi-rigid hoses for use on hose reels, semi-rigid hoses used by firefighters; rigid hoses used for the suction of fluids.

(8) Raw rubber, chlorinated rubber, silicone rubber, hydrochlorinated rubber, natural rubber; composite plastics, namely firefighting materials made of composites, namely fire nozzles, dividers for splitting a water supply; composite plastic materials made from glass fibre, namely unprocessed plastics in powder, liquid, or paste form; rubber valves; caps for plugging fire hose couplings; non-metal hose couplings; non-metal gaskets, pipe gaskets; firefighting materials and equipment, namely hand nozzles, monitors, connectors and hydraulic accessories for fire nozzles; non-metal

pipes, namely ceramic drain pipes, non-metal drain pipes, concrete pipes; products made of semi-processed plastics, namely plastic sheets for industrial and manufacturing use, plastics for modelling, plastic pellets for packaging; watering hoses; flexible pipes, not of metal namely flexible pipes as parts of sink, shower and bath plumbing installations; fire hose with smooth interior surfaces (smooth bore), namely smooth bore fire hoses that can be equipped with fittings for the suction and discharge of fluids; semi-rigid hoses for use on hose reels, semi-rigid hoses used by firefighters; rigid hoses used for the suction of fluids.

(3) acceleration sensors; air traffic control radio equipment; antennas for radio; anti-glare filters for televisions and computer monitors; apparatus for automatic chromatography; apparatus for measuring the thickness of skins; automatic indicators of low pressure in tyres; automatic indicators of low pressure in vehicle tires; automatic indicators of low pressure in vehicle tyres; automatic ion-exchange chromatography apparatus for laboratory use; bicycle flashing safety lights; blank integrated circuit cards; breathing apparatus for underwater swimming; camera containing a linear image sensor; cameras for monitoring and inspecting equipment in a nuclear power station; carbon dioxide detectors; carbon monoxide detectors; cases for electronic diaries; change-over switches for telecommunication apparatus; choking coils for use in electrical apparatus; chromatography apparatus for laboratory use; circuit boards; circuit boards provided with integrated circuits; clip-on flashing safety lights; computer buffers; computer cables; computer central processing units; computer chips; computer display screens; computer fingerprint imaging software; computer fingerprint scanning software; computer games downloadable from a global computer network; computer games for use on mobile and cellular phones; computer hardware; computer hardware and software for setting up and configuring local area networks; computer hardware for telecommunications; computer interface boards; computer interface cards; computer keyboards; computer memory expansion modules; computer mice; computer monitors; computer motherboards and daughterboards; computer mouse; computer mouse pads; computer network adapters; computer network bridges; computer network server; computer network switches; computer operating programs; computer operating recorded programs; computer operating

systems; computer power supplies; computer programmes for document management; computer programs (cad/cam)recorded on software designed for use in construction and automated manufacturing; computer programs for searching the contents of computers and computer networks by remote control; computer programs used for electronic cash register systems; computer scanners; computer screen saver software; computer screens; computer servers; computer software and databases for use in diagnosis, repair and configuration of computers; computer software featuring mathematical algorithms and indices for use in analyzing and evaluating dairy cow health and productivity; computer software for assisting developers in creating program code for use in multiple application programs; computer software for controlling and managing access server applications; computer software for controlling and operating laser rangefinders; computer software for creating and inserting metatags into documents and information; computer software for creating, sending and receiving e-mail; computer software for database management; computer software for digital animation and special effects of images; computer software for displaying orders and driver locations on maps; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for image processing; computer software for managing retail store customer accounts; computer software for medical imaging; computer software for oil and gas reservoir analysis; computer software for optical character recognition; computer software for organizing and viewing digital images and photographs; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for processing digital images; computer software for running development programs and application programs in a common development environment; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for use as a spreadsheet; computer software for use in cancer diagnosis; computer software for use in controlling and improving computer processing speed; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software for use in processing semiconductor wafers; computer software for use in programming facsimile machines; computer software for validating address and zone information; computer software for word processing; computer software that allows transmission of graphics to mobile telephones; computer software to automate data warehousing; computer software to enable the transmission of photographs to mobile telephones; computer terminals; computer utility file compression programs; computer utility file storage programs; computer utility programs for adding or repartitioning a hard disk drive; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computer utility programs for providing diagnostic details on devices installed in a computer system; computer utility programs for testing and evaluating a computer monitor or video display for optimum image and picture quality; computer video games downloaded via the internet; computer whiteboards; computers; computers and computer hardware; computers for managing control devices for aircraft; computers for use in data management; connectors for electronic circuits; coolant-temperature sensors; decision circuits; demagnetizing apparatus for magnetic tapes; desktop computers; diagrams for model aircraft circuits; digital photo-optical systems; digital signage monitors; disk drives for computers; dispersion shifted optical fibres; dive computers; downloadable computer graphics; downloadable electronic games; e-commerce software to allow users to perform electronic business transactions via a global computer network; electric and electronic video surveillance installations; electric capacitors for telecommunication apparatus; electric resistors for telecommunication apparatus; electrical and electronic burglar alarms; electrical and optical cables; electrical industrial controls for monitoring waste water treatment; electrical transformers for telecommunication apparatus; electricity conduits; electrodes for laboratory research; electrolysis apparatus for producing

hydrogen and oxygen from water; electronic agendas; electronic book readers; electronic books; electronic cables; electronic card readers; electronic chips for the manufacture of integrated circuits ; electronic circuit board; electronic circuits; electronic computers; electronic conductors for fuel cells; electronic conductors for integrated circuits; electronic connectors for circuit boards; electronic connectors for loud speakers; electronic connectors for video recorders; electronic control systems for automobile brakes; electronic control systems for room locking systems; electronic controllers for flight control systems; electronic controllers for furnaces; electronic databases containing information in the field of allergies recorded on computer media; electronic diaries; electronic door closing systems; electronic encryption units; electronic equipment for mine detection; electronic frequency converters for high velocity electro motors; electronic glossaries; electronic industrial controls for digital timers; electronic industrial controls for motion failure detectors; electronic integrated circuits; electronic lock assemblies; electronic machines for reading credit cards and recording financial operations; electronic organizers; electronic payment terminals; electronic pens; electronic personal organisers; electronic personal organizers; electronic plotters; electronic pocket translators; electronic semi-conductors; electronic sensors for measuring solar radiation; electronic speed controllers; electronic tags for goods; electronic toll smart cards; electronic warning bells; external computer hard drives; filters for radio interference suppression; fire and smoke detectors; fire extinguishing apparatus for automobiles; firmware for remote monitoring of hardware; flashing safety lights for traffic cones; floppy discs drives for computers; galena crystal detectors for use in electronics; glassware for scientific experiments in laboratories; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; graphite electrodes; handheld computers; hand-held electronic dictionaries; highway safety cones; indicator lights for telecommunication apparatus; integrated circuit electronic toll cards; integrated circuit hotel room key cards; integrated circuit identification cards; integrated circuit modules; integrated circuits; integrated circuits incorporating algorithms for use in processing television signals; interface cards for data processing equipment in the form of printed circuits; internet newsletters; lan [local area network] computer cards for connecting portable computer devices to computer networks; laptop computers; large scale integrated circuits; lcd monitors; led underwater lights for use as a safety beacon for scuba divers; light-emitting electronic pointers; liquid level sensors; luminous safety beacons for use as a personal locator; magnetic mount flashing safety lights for vehicles; magnetic object detectors; magnetic tape units for computers; magneto-optical pens; manual telegraph apparatus; marine luminous safety beacons; masts for wireless aerials; metal detectors; metal detectors for industrial or military purposes; microphones for telecommunication apparatus; motion detectors; motion sensors; mounting racks for computer hardware; navigation apparatus for vehicles in the form of on-board computers; netbook computers; nonlinear optical fibres; notebook and laptop computers; notebook computer carrying cases; oil level sensors; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROMs; optical amplifiers; optical cables; optical character readers; optical character recognition apparatus; optical condensers; optical fiber cables; optical fibres; optical filters for screens; optical frames; optical glass; optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits; optical inspection apparatus for inspecting the circuitry used in cell phones; optical inspection apparatus for inspection of food; optical lenses; optical multiplexers; optical reflectors; optical scanners; optical semiconductor amplifiers; optical sensors; optical shutters; optical spectacles; optical switches; personal computers; pocket computers for note-taking; pocket-sized electronic calculators; polarisation maintaining optical fibres; pollutant sensors; portable radios; pressure sensors; printed circuit boards; printed circuits; printed electronic circuits for apparatus and cards bearing integrated circuits; printers for computers; printers for use with computers; printing fonts that can be downloaded provided by means of electronic transmission; programmable electronic

data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; proximity sensors; radar detectors; radio and television aerials; radio frequency connectors; radio pagers; radio receivers; radio receivers and radio signal tuners; radio receivers and transmitters; radio relay cables; radio sets; radio transceivers; radio transmission towers; radio transmitters; radio transmitters and receivers; radios; radios and telephones; radon detectors; recorded computer operating programs; reflective safety bands to be worn on the body; reflective safety vests; relays for radio and TV stations; repeaters for radio and television stations; safety boots; safety contact plugs; safety goggles; safety harnesses; safety markers; satellites for scientific purposes; scientific apparatus for determining the water content in petroleum products; scientific prisms; secure terminals for electronic transactions; semiconductor integrated circuits; short range radios; single-channel radio communication machines and apparatus for fixed stations; smoke detectors; software for computer aided design CAD; software for computer aided mechanical design; software for ensuring the security of electronic mail; sound filters made of cloth, for radio apparatus; spectrograph apparatus; tablet computers; temperature sensors; thermal sensors; timing sensors; transparency projection apparatus; two-way radios; vacuum tubes for radios; vehicle radios; vibration sensors for installation in wind mill housings; voltage monitor modules; wafers for integrated circuits; warning triangles for road safety; water ski safety vests; wireless computer mice; x-ray apparatus for detecting moisture in building material; x-ray apparatus for screening luggage at airports

Class 10

(4) anesthetic delivery apparatus; apparatus for artificial respiration; apparatus for blood analysis; apparatus for cardiac defibrillation; apparatus for taking blood; apparatus for taking blood samples; apparatus used in implementing diagnosis tests designed to detect the abnormal prion protein; arterial blood pressure measuring apparatus; artificial respiration apparatus; automatic vaccination apparatus; blood drawing apparatus; blood glucose monitors; blood pressure measuring apparatus; blood pressure monitors; blood testing apparatus; blood transfusion apparatus; body-fat monitors; breast pumps; cardiac defibrillation electrodes; cardiac electrodes; diabetes monitoring equipment for sampling and analyzing blood and body tissue; electrodes for external defibrillators; electrodes for medical use; electronic medical devices implanted in the eye to help restore vision; electronic muscle stimulators; heart monitors; heart rate monitors; heartbeat measuring apparatus; high frequency electromagnetic therapy apparatus; hydrophilic guide wire to track catheters; incubators for medical purposes; lead electrode reconfiguration algorithm sold as an integral component of a medical cardiac stimulation device; low frequency electric therapy apparatus; magnetic resonance CT apparatus; magnetic resonance imaging (MRI) diagnostic apparatus; medical apparatus and instruments in the field of neurovegetative reactivity; medical apparatus for facilitating the inhalation of pharmaceutical preparations; medical electrodes; medical ultrasound apparatus; medical x-ray apparatus; microdermabrasion apparatus; obstetric apparatus for cattle; oxygen monitors; patient safety restraint straps; patient safety restraints; phototherapeutic apparatus for medical purposes; polymerisation apparatus for dental purposes; prosthetic sockets used to fasten prosthetic limbs to the body; pulse rate monitors; static electric therapy apparatus; ultrasonic medical diagnostic apparatus; x-ray apparatus for dental imaging; x-ray apparatus for medical purposes; x-ray apparatus for medical use

Class 11

(5) safety lamps for underground use

Class 16

(6) computer manuals featuring software encryption algorithms

Class 28

(7) arm bands featuring motion sensors and gesture control software for use with interactive video games; armbands featuring motion sensors and gesture control software for use with interactive video games; tennis ball throwing apparatus

SERVICES

Class 35

(1) auctioning via telecommunication networks; computer file management; providing home shopping services of fitness equipment via the Internet; subscription to an Internet telematics, telephone or computer service; tracking and tracing of packages in transit

Class 38

(2) electronic mail; electronic mail services through wired and wireless access, paging services, wireless digital messaging services; internet radio broadcasting services; internet telephony services; leasing access time to a computer database in the field of community social events; leasing access time to an electronic bulletin board in the field of community social events; mobile radio telephone services; news agency services via a global computer network; operating a wide-area network (WAN); operation of an electronic bulletin board containing information in the field of nutrition; operation of an electronic bulletin board in the field of community social events; paging by radio; providing chat lines utilising the internet; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; providing multiple user access to a computer network; providing user access to a global computer network; providing user access to global computer networks; providing voice chat services; provision of access to a global computer network; provision of access to the Internet; radio/ telephone paging services; rental of access time to global computer networks; streaming of audio and video via the Internet featuring music, movies, news, and sports; telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes; telecommunication routing and junction services; telecommunications routing and junction services; telematic in-vehicle communication service providing wireless vehicle navigation and tracking; telephone carrier services provided by means of fibre optic cables, telephone lines, radio and microwave transmission, satellite transmission; wireless digital messaging services; wireless facsimile mail services; wireless fax services; wireless telephone services; wireless voice mail services

Class 40

(3) generating electricity; generation of electricity; generation of electricity from solar energy; providing custom-built computer workstations

Class 41

(4) training for handling scientific instruments and apparatus for research in laboratories

Class 42

(5) calibration of electronic equipment; computer aided graphic design; computer aided imaging; computer animation production services; computer design services; computer diagnostic services; computer disaster recovery planning; computer graphics design services; computer graphics digitization; computer graphics imaging; computer hardware and software design; computer network configuration services; computer network design for others; computer network security services; computer programming; computer programming and maintenance of computer programs; computer programming and software design; computer programming consultancy; computer programming for others; computer programming in the medical field; computer programming

services; computer security consultancy; computer site design services; computer software consultancy; computer software consulting; computer software design; computer software design and updating; computer software design for others; computer software installation and maintenance; computer software project management services; computer systems design; computer systems integration services; computer systems monitoring services; computer website design; consumer product safety testing services; conversion of data or documents from physical to electronic media; creating of computer programs for others; creating of home pages for computer networks for others; debugging computer software for others; design and development of computer game software and virtual reality software; design and development of computer hardware; design and development of computer hardware and software; design and development of computer hardware for the manufacturing industries; design and development of computer software; design and development of computers and programs for computers; design and development of electronic data security systems; design and development of wireless computer networks; design and maintenance of computer sites for third parties; design and writing of computer software; design, creation, hosting and maintenance of internet sites for third parties; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; design of computer database; design of computer programs and software for aircraft dashboards; design of computers; design of computers for others; design of optical and micro optical components; designing and developing webpages on the internet for others; designing computer software for controlling self-service terminals; developing computer programs for electronic cash register systems; developing programs for simulating experiments or series of experiments in a virtual optical laboratory; development and creation of computer programmes for data processing; development of computer programs recorded on software designed for use in construction and automated manufacturing (cad/cam); digital compression of computer data; DNA screening for scientific research purposes; document data transfer from one computer format to another; electronic digitizing of photographs into a computer readable media; electronic storage of medical records; electronic storage of photographic images; food safety auditing; genetic testing for scientific research purposes; information on the subject of scientific research in the field of biochemistry and biotechnology; installation, maintenance and repair of computer software; installation, maintenance and repair of Internet access software; installation, maintenance and repair of software for computer systems; integrated scientific research on vermin for greenhouses and harvest crops; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of computer software used for operating filling apparatus and machines; maintenance of software for Internet access; optical laboratories; providing medical and scientific research information in the field of pharmaceuticals and clinical trials; providing scientific information in the fields of climate change and global warming; providing search engines for the internet; scientific research in the field of genetics and genetic engineering; technical support in the form of monitoring global computer network systems; technical support services in the form of troubleshooting of computer hardware and software problems; telemetry monitoring, alerting and record-keeping of space craft; testing of two-way radio systems; writing and updating computer software

Class 44

(6) cardiac telemetry monitoring of a patient's heart rate; managed health care services namely, electronic processing of health care information

Class 45

(7) licensing of computer software; monitoring of burglar and security alarms; monitoring of home security systems; telemetry monitoring of exact location of wild animals

(2) films and sheets made from metal for use in the manufacture of circuit boards

Class 09

(3) acceleration sensors; air traffic control radio equipment; antennas for radio; anti-glare filters for televisions and computer monitors; apparatus for automatic chromatography; apparatus for measuring the thickness of skins; automatic indicators of low pressure in tyres; automatic indicators of low pressure in vehicle tires; automatic indicators of low pressure in vehicle tyres; automatic ion-exchange chromatography apparatus for laboratory use; bicycle flashing safety lights; blank integrated circuit cards; breathing apparatus for underwater swimming; camera containing a linear image sensor; cameras for monitoring and inspecting equipment in a nuclear power station; carbon dioxide detectors; carbon monoxide detectors; cases for electronic diaries; change-over switches for telecommunication apparatus; choking coils for use in electrical apparatus; chromatography apparatus for laboratory use; circuit boards; circuit boards provided with integrated circuits; clip-on flashing safety lights; computer buffers; computer cables; computer central processing units; computer chips; computer display screens; computer fingerprint imaging software; computer fingerprint scanning software; computer games downloadable from a global computer network; computer games for use on mobile and cellular phones; computer hardware; computer hardware and software for setting up and configuring local area networks; computer hardware for telecommunications; computer interface boards; computer interface cards; computer keyboards; computer memory expansion modules; computer mice; computer monitors; computer motherboards and daughterboards; computer mouse; computer mouse pads; computer network adapters; computer network bridges; computer network server; computer network switches; computer operating programs; computer operating recorded programs; computer operating

systems; computer power supplies; computer programmes for document management; computer programs (cad/cam)recorded on software designed for use in construction and automated manufacturing; computer programs for searching the contents of computers and computer networks by remote control; computer programs used for electronic cash register systems; computer scanners; computer screen saver software; computer screens; computer servers; computer software and databases for use in diagnosis, repair and configuration of computers; computer software featuring mathematical algorithms and indices for use in analyzing and evaluating dairy cow health and productivity; computer software for assisting developers in creating program code for use in multiple application programs; computer software for controlling and managing access server applications; computer software for controlling and operating laser rangefinders; computer software for creating and inserting metatags into documents and information; computer software for creating, sending and receiving e-mail; computer software for database management; computer software for digital animation and special effects of images; computer software for displaying orders and driver locations on maps; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for image processing; computer software for managing retail store customer accounts; computer software for medical imaging; computer software for oil and gas reservoir analysis; computer software for optical character recognition; computer software for organizing and viewing digital images and photographs; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for processing digital images; computer software for running development programs and application programs in a common development environment; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for use as a spreadsheet; computer software for use in cancer diagnosis; computer software for use in controlling and improving computer processing speed; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software for use in processing semiconductor wafers; computer software for use in programming facsimile machines; computer software for validating address and zone information; computer software for word processing; computer software that allows transmission of graphics to mobile telephones; computer software to automate data warehousing; computer software to enable the transmission of photographs to mobile telephones; computer terminals; computer utility file compression programs; computer utility file storage programs; computer utility programs for adding or repartitioning a hard disk drive; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computer utility programs for providing diagnostic details on devices installed in a computer system; computer utility programs for testing and evaluating a computer monitor or video display for optimum image and picture quality; computer video games downloaded via the internet; computer whiteboards; computers; computers and computer hardware; computers for managing control devices for aircraft; computers for use in data management; connectors for electronic circuits; coolant-temperature sensors; decision circuits; demagnetizing apparatus for magnetic tapes; desktop computers; diagrams for model aircraft circuits; digital photo-optical systems; digital signage monitors; disk drives for computers; dispersion shifted optical fibres; dive computers; downloadable computer graphics; downloadable electronic games; e-commerce software to allow users to perform electronic business transactions via a global computer network; electric and electronic video surveillance installations; electric capacitors for telecommunication apparatus; electric resistors for telecommunication apparatus; electrical and electronic burglar alarms; electrical and optical cables; electrical industrial controls for monitoring waste water treatment; electrical transformers for telecommunication apparatus; electricity conduits; electrodes for laboratory research; electrolysis apparatus for producing

hydrogen and oxygen from water; electronic agendas; electronic book readers; electronic books; electronic cables; electronic card readers; electronic chips for the manufacture of integrated circuits ; electronic circuit board; electronic circuits; electronic computers; electronic conductors for fuel cells; electronic conductors for integrated circuits; electronic connectors for circuit boards; electronic connectors for loud speakers; electronic connectors for video recorders; electronic control systems for automobile brakes; electronic control systems for room locking systems; electronic controllers for flight control systems; electronic controllers for furnaces; electronic databases containing information in the field of allergies recorded on computer media; electronic diaries; electronic door closing systems; electronic encryption units; electronic equipment for mine detection; electronic frequency converters for high velocity electro motors; electronic glossaries; electronic industrial controls for digital timers; electronic industrial controls for motion failure detectors; electronic integrated circuits; electronic lock assemblies; electronic machines for reading credit cards and recording financial operations; electronic organizers; electronic payment terminals; electronic pens; electronic personal organisers; electronic personal organizers; electronic plotters; electronic pocket translators; electronic semi-conductors; electronic sensors for measuring solar radiation; electronic speed controllers; electronic tags for goods; electronic toll smart cards; electronic warning bells; external computer hard drives; filters for radio interference suppression; fire and smoke detectors; fire extinguishing apparatus for automobiles; firmware for remote monitoring of hardware; flashing safety lights for traffic cones; floppy discs drives for computers; galena crystal detectors for use in electronics; glassware for scientific experiments in laboratories; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; graphite electrodes; handheld computers; hand-held electronic dictionaries; highway safety cones; indicator lights for telecommunication apparatus; integrated circuit electronic toll cards; integrated circuit hotel room key cards; integrated circuit identification cards; integrated circuit modules; integrated circuits; integrated circuits incorporating algorithms for use in processing television signals; interface cards for data processing equipment in the form of printed circuits; internet newsletters; lan [local area network] computer cards for connecting portable computer devices to computer networks; laptop computers; large scale integrated circuits; lcd monitors; led underwater lights for use as a safety beacon for scuba divers; light-emitting electronic pointers; liquid level sensors; luminous safety beacons for use as a personal locator; magnetic mount flashing safety lights for vehicles; magnetic object detectors; magnetic tape units for computers; magneto-optical pens; manual telegraph apparatus; marine luminous safety beacons; masts for wireless aerials; metal detectors; metal detectors for industrial or military purposes; microphones for telecommunication apparatus; motion detectors; motion sensors; mounting racks for computer hardware; navigation apparatus for vehicles in the form of on-board computers; netbook computers; nonlinear optical fibres; notebook and laptop computers; notebook computer carrying cases; oil level sensors; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROMs; optical amplifiers; optical cables; optical character readers; optical character recognition apparatus; optical condensers; optical fiber cables; optical fibres; optical filters for screens; optical frames; optical glass; optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits; optical inspection apparatus for inspecting the circuitry used in cell phones; optical inspection apparatus for inspection of food; optical lenses; optical multiplexers; optical reflectors; optical scanners; optical semiconductor amplifiers; optical sensors; optical shutters; optical spectacles; optical switches; personal computers; pocket computers for note-taking; pocket-sized electronic calculators; polarisation maintaining optical fibres; pollutant sensors; portable radios; pressure sensors; printed circuit boards; printed circuits; printed electronic circuits for apparatus and cards bearing integrated circuits; printers for computers; printers for use with computers; printing fonts that can be downloaded provided by means of electronic transmission; programmable electronic

data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; proximity sensors; radar detectors; radio and television aerials; radio frequency connectors; radio pagers; radio receivers; radio receivers and radio signal tuners; radio receivers and transmitters; radio relay cables; radio sets; radio transceivers; radio transmission towers; radio transmitters; radio transmitters and receivers; radios; radios and telephones; radon detectors; recorded computer operating programs; reflective safety bands to be worn on the body; reflective safety vests; relays for radio and TV stations; repeaters for radio and television stations; safety boots; safety contact plugs; safety goggles; safety harnesses; safety markers; satellites for scientific purposes; scientific apparatus for determining the water content in petroleum products; scientific prisms; secure terminals for electronic transactions; semiconductor integrated circuits; short range radios; single-channel radio communication machines and apparatus for fixed stations; smoke detectors; software for computer aided design CAD; software for computer aided mechanical design; software for ensuring the security of electronic mail; sound filters made of cloth, for radio apparatus; spectrograph apparatus; tablet computers; temperature sensors; thermal sensors; timing sensors; transparency projection apparatus; two-way radios; vacuum tubes for radios; vehicle radios; vibration sensors for installation in wind mill housings; voltage monitor modules; wafers for integrated circuits; warning triangles for road safety; water ski safety vests; wireless computer mice; x-ray apparatus for detecting moisture in building material; x-ray apparatus for screening luggage at airports

Class 10

(4) anesthetic delivery apparatus; apparatus for artificial respiration; apparatus for blood analysis; apparatus for cardiac defibrillation; apparatus for taking blood; apparatus for taking blood samples; apparatus used in implementing diagnosis tests designed to detect the abnormal prion protein; arterial blood pressure measuring apparatus; artificial respiration apparatus; automatic vaccination apparatus; blood drawing apparatus; blood glucose monitors; blood pressure measuring apparatus; blood pressure monitors; blood testing apparatus; blood transfusion apparatus; body-fat monitors; breast pumps; cardiac defibrillation electrodes; cardiac electrodes; diabetes monitoring equipment for sampling and analyzing blood and body tissue; electrodes for external defibrillators; electrodes for medical use; electronic medical devices implanted in the eye to help restore vision; electronic muscle stimulators; heart monitors; heart rate monitors; heartbeat measuring apparatus; high frequency electromagnetic therapy apparatus; hydrophilic guide wire to track catheters; incubators for medical purposes; lead electrode reconfiguration algorithm sold as an integral component of a medical cardiac stimulation device; low frequency electric therapy apparatus; magnetic resonance CT apparatus; magnetic resonance imaging (MRI) diagnostic apparatus; medical apparatus and instruments in the field of neurovegetative reactivity; medical apparatus for facilitating the inhalation of pharmaceutical preparations; medical electrodes; medical ultrasound apparatus; medical x-ray apparatus; microdermabrasion apparatus; obstetric apparatus for cattle; oxygen monitors; patient safety restraint straps; patient safety restraints; phototherapeutic apparatus for medical purposes; polymerisation apparatus for dental purposes; prosthetic sockets used to fasten prosthetic limbs to the body; pulse rate monitors; static electric therapy apparatus; ultrasonic medical diagnostic apparatus; x-ray apparatus for dental imaging; x-ray apparatus for medical purposes; x-ray apparatus for medical use

Class 11

(5) safety lamps for underground use

Class 16

(6) computer manuals featuring software encryption algorithms

Class 28

(7) arm bands featuring motion sensors and gesture control software for use with interactive video games; armbands featuring motion sensors and gesture control software for use with interactive video games; tennis ball throwing apparatus

SERVICES

Class 35

(1) auctioning via telecommunication networks; computer file management; providing home shopping services of fitness equipment via the Internet; subscription to an Internet telematics, telephone or computer service; tracking and tracing of packages in transit

Class 38

(2) electronic mail; electronic mail services through wired and wireless access, paging services, wireless digital messaging services; internet radio broadcasting services; internet telephony services; leasing access time to a computer database in the field of community social events; leasing access time to an electronic bulletin board in the field of community social events; mobile radio telephone services; news agency services via a global computer network; operating a wide-area network (WAN); operation of an electronic bulletin board containing information in the field of nutrition; operation of an electronic bulletin board in the field of community social events; paging by radio; providing chat lines utilising the internet; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; providing multiple user access to a computer network; providing user access to a global computer network; providing user access to global computer networks; providing voice chat services; provision of access to a global computer network; provision of access to the Internet; radio/telephone paging services; rental of access time to global computer networks; streaming of audio and video via the Internet featuring music, movies, news, and sports; telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes; telecommunication routing and junction services; telecommunications routing and junction services; telematic in-vehicle communication service providing wireless vehicle navigation and tracking; telephone carrier services provided by means of fibre optic cables, telephone lines, radio and microwave transmission, satellite transmission; wireless digital messaging services; wireless facsimile mail services; wireless fax services; wireless telephone services; wireless voice mail services

Class 40

(3) generating electricity; generation of electricity; generation of electricity from solar energy; providing custom-built computer workstations

Class 41

(4) training for handling scientific instruments and apparatus for research in laboratories

Class 42

(5) calibration of electronic equipment; computer aided graphic design; computer aided imaging; computer animation production services; computer design services; computer diagnostic services; computer disaster recovery planning; computer graphics design services; computer graphics digitization; computer graphics imaging; computer hardware and software design; computer network configuration services; computer network design for others; computer network security services; computer programming; computer programming and maintenance of computer programs; computer programming and software design; computer programming consultancy; computer programming for others; computer programming in the medical field; computer programming

services; computer security consultancy; computer site design services; computer software consultancy; computer software consulting; computer software design; computer software design and updating; computer software design for others; computer software installation and maintenance; computer software project management services; computer systems design; computer systems integration services; computer systems monitoring services; computer website design; consumer product safety testing services; conversion of data or documents from physical to electronic media; creating of computer programs for others; creating of home pages for computer networks for others; debugging computer software for others; design and development of computer game software and virtual reality software; design and development of computer hardware; design and development of computer hardware and software; design and development of computer hardware for the manufacturing industries; design and development of computer software; design and development of computers and programs for computers; design and development of electronic data security systems; design and development of wireless computer networks; design and maintenance of computer sites for third parties; design and writing of computer software; design, creation, hosting and maintenance of internet sites for third parties; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; design of computer database; design of computer programs and software for aircraft dashboards; design of computers; design of computers for others; design of optical and micro optical components; designing and developing webpages on the internet for others; designing computer software for controlling self-service terminals; developing computer programs for electronic cash register systems; developing programs for simulating experiments or series of experiments in a virtual optical laboratory; development and creation of computer programmes for data processing; development of computer programs recorded on software designed for use in construction and automated manufacturing (cad/cam); digital compression of computer data; DNA screening for scientific research purposes; document data transfer from one computer format to another; electronic digitizing of photographs into a computer readable media; electronic storage of medical records; electronic storage of photographic images; food safety auditing; genetic testing for scientific research purposes; information on the subject of scientific research in the field of biochemistry and biotechnology; installation, maintenance and repair of computer software; installation, maintenance and repair of Internet access software; installation, maintenance and repair of software for computer systems; integrated scientific research on vermin for greenhouses and harvest crops; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of computer software used for operating filling apparatus and machines; maintenance of software for Internet access; optical laboratories; providing medical and scientific research information in the field of pharmaceuticals and clinical trials; providing scientific information in the fields of climate change and global warming; providing search engines for the internet; scientific research in the field of genetics and genetic engineering; technical support in the form of monitoring global computer network systems; technical support services in the form of troubleshooting of computer hardware and software problems; telemetry monitoring, alerting and record-keeping of space craft; testing of two-way radio systems; writing and updating computer software

Class 44

(6) cardiac telemetry monitoring of a patient's heart rate; managed health care services namely, electronic processing of health care information

Class 45

(7) licensing of computer software; monitoring of burglar and security alarms; monitoring of home security systems; telemetry monitoring of exact location of wild animals

Goods

Class 01

(1) chemical coatings used in the manufacture of printed circuit boards; chemical oxidants for the manufacture of printed circuits; diagnostic preparations for medical-scientific research use; diagnostic preparations for scientific research use testing for contaminants in food; diagnostic preparations for scientific research use testing for residual pesticides in grain; diagnostic reagents for medical-scientific research use; diagnostic reagents for scientific research use that test for contaminants in food; diagnostic reagents for scientific research use that test for residual pesticides in grain; etchants for use in the manufacture of printed circuit boards; stem cells for research and scientific purposes

Class 06

(2) films and sheets made from metal for use in the manufacture of circuit boards

Class 09

(3) acceleration sensors; air traffic control radio equipment; antennas for radio; anti-glare filters for televisions and computer monitors; apparatus for automatic chromatography; apparatus for measuring the thickness of skins; automatic indicators of low pressure in tyres; automatic indicators of low pressure in vehicle tires; automatic indicators of low pressure in vehicle tyres; automatic ion-exchange chromatography apparatus for laboratory use; bicycle flashing safety lights; blank integrated circuit cards; breathing apparatus for underwater swimming; camera containing a linear image sensor; cameras for monitoring and inspecting equipment in a nuclear power station; carbon dioxide detectors; carbon monoxide detectors; cases for electronic diaries; change-over switches for telecommunication apparatus; choking coils for use in electrical apparatus; chromatography apparatus for laboratory use; circuit boards; circuit boards provided with integrated circuits; clip-on flashing safety lights; computer buffers; computer cables; computer central processing units; computer chips; computer display screens; computer fingerprint imaging software; computer fingerprint scanning software; computer games downloadable from a global computer network; computer games for use on mobile and cellular phones; computer hardware; computer hardware and software for setting up and configuring local area networks; computer hardware for telecommunications; computer interface boards; computer interface cards; computer keyboards; computer memory expansion modules; computer mice; computer monitors; computer motherboards and daughterboards; computer mouse; computer mouse pads; computer network adapters; computer network bridges; computer network server; computer network switches; computer operating programs; computer operating recorded programs; computer operating

systems; computer power supplies; computer programmes for document management; computer programs (cad/cam)recorded on software designed for use in construction and automated manufacturing; computer programs for searching the contents of computers and computer networks by remote control; computer programs used for electronic cash register systems; computer scanners; computer screen saver software; computer screens; computer servers; computer software and databases for use in diagnosis, repair and configuration of computers; computer software featuring mathematical algorithms and indices for use in analyzing and evaluating dairy cow health and productivity; computer software for assisting developers in creating program code for use in multiple application programs; computer software for controlling and managing access server applications; computer software for controlling and operating laser rangefinders; computer software for creating and inserting metatags into documents and information; computer software for creating, sending and receiving e-mail; computer software for database management; computer software for digital animation and special effects of images; computer software for displaying orders and driver locations on maps; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for image processing; computer software for managing retail store customer accounts; computer software for medical imaging; computer software for oil and gas reservoir analysis; computer software for optical character recognition; computer software for organizing and viewing digital images and photographs; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for processing digital images; computer software for running development programs and application programs in a common development environment; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for use as a spreadsheet; computer software for use in cancer diagnosis; computer software for use in controlling and improving computer processing speed; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software for use in processing semiconductor wafers; computer software for use in programming facsimile machines; computer software for validating address and zone information; computer software for word processing; computer software that allows transmission of graphics to mobile telephones; computer software to automate data warehousing; computer software to enable the transmission of photographs to mobile telephones; computer terminals; computer utility file compression programs; computer utility file storage programs; computer utility programs for adding or repartitioning a hard disk drive; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computer utility programs for providing diagnostic details on devices installed in a computer system; computer utility programs for testing and evaluating a computer monitor or video display for optimum image and picture quality; computer video games downloaded via the internet; computer whiteboards; computers; computers and computer hardware; computers for managing control devices for aircraft; computers for use in data management; connectors for electronic circuits; coolant-temperature sensors; decision circuits; demagnetizing apparatus for magnetic tapes; desktop computers; diagrams for model aircraft circuits; digital photo-optical systems; digital signage monitors; disk drives for computers; dispersion shifted optical fibres; dive computers; downloadable computer graphics; downloadable electronic games; e-commerce software to allow users to perform electronic business transactions via a global computer network; electric and electronic video surveillance installations; electric capacitors for telecommunication apparatus; electric resistors for telecommunication apparatus; electrical and electronic burglar alarms; electrical and optical cables; electrical industrial controls for monitoring waste water treatment; electrical transformers for telecommunication apparatus; electricity conduits; electrodes for laboratory research; electrolysis apparatus for producing

hydrogen and oxygen from water; electronic agendas; electronic book readers; electronic books; electronic cables; electronic card readers; electronic chips for the manufacture of integrated circuits ; electronic circuit board; electronic circuits; electronic computers; electronic conductors for fuel cells; electronic conductors for integrated circuits; electronic connectors for circuit boards; electronic connectors for loud speakers; electronic connectors for video recorders; electronic control systems for automobile brakes; electronic control systems for room locking systems; electronic controllers for flight control systems; electronic controllers for furnaces; electronic databases containing information in the field of allergies recorded on computer media; electronic diaries; electronic door closing systems; electronic encryption units; electronic equipment for mine detection; electronic frequency converters for high velocity electro motors; electronic glossaries; electronic industrial controls for digital timers; electronic industrial controls for motion failure detectors; electronic integrated circuits; electronic lock assemblies; electronic machines for reading credit cards and recording financial operations; electronic organizers; electronic payment terminals; electronic pens; electronic personal organisers; electronic personal organizers; electronic plotters; electronic pocket translators; electronic semi-conductors; electronic sensors for measuring solar radiation; electronic speed controllers; electronic tags for goods; electronic toll smart cards; electronic warning bells; external computer hard drives; filters for radio interference suppression; fire and smoke detectors; fire extinguishing apparatus for automobiles; firmware for remote monitoring of hardware; flashing safety lights for traffic cones; floppy discs drives for computers; galena crystal detectors for use in electronics; glassware for scientific experiments in laboratories; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; graphite electrodes; handheld computers; hand-held electronic dictionaries; highway safety cones; indicator lights for telecommunication apparatus; integrated circuit electronic toll cards; integrated circuit hotel room key cards; integrated circuit identification cards; integrated circuit modules; integrated circuits; integrated circuits incorporating algorithms for use in processing television signals; interface cards for data processing equipment in the form of printed circuits; internet newsletters; lan [local area network] computer cards for connecting portable computer devices to computer networks; laptop computers; large scale integrated circuits; lcd monitors; led underwater lights for use as a safety beacon for scuba divers; light-emitting electronic pointers; liquid level sensors; luminous safety beacons for use as a personal locator; magnetic mount flashing safety lights for vehicles; magnetic object detectors; magnetic tape units for computers; magneto-optical pens; manual telegraph apparatus; marine luminous safety beacons; masts for wireless aerials; metal detectors; metal detectors for industrial or military purposes; microphones for telecommunication apparatus; motion detectors; motion sensors; mounting racks for computer hardware; navigation apparatus for vehicles in the form of on-board computers; netbook computers; nonlinear optical fibres; notebook and laptop computers; notebook computer carrying cases; oil level sensors; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROMs; optical amplifiers; optical cables; optical character readers; optical character recognition apparatus; optical condensers; optical fiber cables; optical fibres; optical filters for screens; optical frames; optical glass; optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits; optical inspection apparatus for inspecting the circuitry used in cell phones; optical inspection apparatus for inspection of food; optical lenses; optical multiplexers; optical reflectors; optical scanners; optical semiconductor amplifiers; optical sensors; optical shutters; optical spectacles; optical switches; personal computers; pocket computers for note-taking; pocket-sized electronic calculators; polarisation maintaining optical fibres; pollutant sensors; portable radios; pressure sensors; printed circuit boards; printed circuits; printed electronic circuits for apparatus and cards bearing integrated circuits; printers for computers; printers for use with computers; printing fonts that can be downloaded provided by means of electronic transmission; programmable electronic

data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; proximity sensors; radar detectors; radio and television aerials; radio frequency connectors; radio pagers; radio receivers; radio receivers and radio signal tuners; radio receivers and transmitters; radio relay cables; radio sets; radio transceivers; radio transmission towers; radio transmitters; radio transmitters and receivers; radios; radios and telephones; radon detectors; recorded computer operating programs; reflective safety bands to be worn on the body; reflective safety vests; relays for radio and TV stations; repeaters for radio and television stations; safety boots; safety contact plugs; safety goggles; safety harnesses; safety markers; satellites for scientific purposes; scientific apparatus for determining the water content in petroleum products; scientific prisms; secure terminals for electronic transactions; semiconductor integrated circuits; short range radios; single-channel radio communication machines and apparatus for fixed stations; smoke detectors; software for computer aided design CAD; software for computer aided mechanical design; software for ensuring the security of electronic mail; sound filters made of cloth, for radio apparatus; spectrograph apparatus; tablet computers; temperature sensors; thermal sensors; timing sensors; transparency projection apparatus; two-way radios; vacuum tubes for radios; vehicle radios; vibration sensors for installation in wind mill housings; voltage monitor modules; wafers for integrated circuits; warning triangles for road safety; water ski safety vests; wireless computer mice; x-ray apparatus for detecting moisture in building material; x-ray apparatus for screening luggage at airports

Class 10

(4) anesthetic delivery apparatus; apparatus for artificial respiration; apparatus for blood analysis; apparatus for cardiac defibrillation; apparatus for taking blood; apparatus for taking blood samples; apparatus used in implementing diagnosis tests designed to detect the abnormal prion protein; arterial blood pressure measuring apparatus; artificial respiration apparatus; automatic vaccination apparatus; blood drawing apparatus; blood glucose monitors; blood pressure measuring apparatus; blood pressure monitors; blood testing apparatus; blood transfusion apparatus; body-fat monitors; breast pumps; cardiac defibrillation electrodes; cardiac electrodes; diabetes monitoring equipment for sampling and analyzing blood and body tissue; electrodes for external defibrillators; electrodes for medical use; electronic medical devices implanted in the eye to help restore vision; electronic muscle stimulators; heart monitors; heart rate monitors; heartbeat measuring apparatus; high frequency electromagnetic therapy apparatus; hydrophilic guide wire to track catheters; incubators for medical purposes; lead electrode reconfiguration algorithm sold as an integral component of a medical cardiac stimulation device; low frequency electric therapy apparatus; magnetic resonance CT apparatus; magnetic resonance imaging (MRI) diagnostic apparatus; medical apparatus and instruments in the field of neurovegetative reactivity; medical apparatus for facilitating the inhalation of pharmaceutical preparations; medical electrodes; medical ultrasound apparatus; medical x-ray apparatus; microdermabrasion apparatus; obstetric apparatus for cattle; oxygen monitors; patient safety restraint straps; patient safety restraints; phototherapeutic apparatus for medical purposes; polymerisation apparatus for dental purposes; prosthetic sockets used to fasten prosthetic limbs to the body; pulse rate monitors; static electric therapy apparatus; ultrasonic medical diagnostic apparatus; x-ray apparatus for dental imaging; x-ray apparatus for medical purposes; x-ray apparatus for medical use

Class 11

(5) safety lamps for underground use

Class 16

(6) computer manuals featuring software encryption algorithms

Class 28

(7) arm bands featuring motion sensors and gesture control software for use with interactive video games; armbands featuring motion sensors and gesture control software for use with interactive video games; tennis ball throwing apparatus

SERVICES

Class 35

(1) auctioning via telecommunication networks; computer file management; providing home shopping services of fitness equipment via the Internet; subscription to an Internet telematics, telephone or computer service; tracking and tracing of packages in transit

Class 38

(2) electronic mail; electronic mail services through wired and wireless access, paging services, wireless digital messaging services; internet radio broadcasting services; internet telephony services; leasing access time to a computer database in the field of community social events; leasing access time to an electronic bulletin board in the field of community social events; mobile radio telephone services; news agency services via a global computer network; operating a wide-area network (WAN); operation of an electronic bulletin board containing information in the field of nutrition; operation of an electronic bulletin board in the field of community social events; paging by radio; providing chat lines utilising the internet; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; providing multiple user access to a computer network; providing user access to a global computer network; providing user access to global computer networks; providing voice chat services; provision of access to a global computer network; provision of access to the Internet; radio/ telephone paging services; rental of access time to global computer networks; streaming of audio and video via the Internet featuring music, movies, news, and sports; telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes; telecommunication routing and junction services; telecommunications routing and junction services; telematic in-vehicle communication service providing wireless vehicle navigation and tracking; telephone carrier services provided by means of fibre optic cables, telephone lines, radio and microwave transmission, satellite transmission; wireless digital messaging services; wireless facsimile mail services; wireless fax services; wireless telephone services; wireless voice mail services

Class 40

(3) generating electricity; generation of electricity; generation of electricity from solar energy; providing custom-built computer workstations

Class 41

(4) training for handling scientific instruments and apparatus for research in laboratories

Class 42

(5) calibration of electronic equipment; computer aided graphic design; computer aided imaging; computer animation production services; computer design services; computer diagnostic services; computer disaster recovery planning; computer graphics design services; computer graphics digitization; computer graphics imaging; computer hardware and software design; computer network configuration services; computer network design for others; computer network security services; computer programming; computer programming and maintenance of computer programs; computer programming and software design; computer programming consultancy; computer programming for others; computer programming in the medical field; computer programming

services; computer security consultancy; computer site design services; computer software consultancy; computer software consulting; computer software design; computer software design and updating; computer software design for others; computer software installation and maintenance; computer software project management services; computer systems design; computer systems integration services; computer systems monitoring services; computer website design; consumer product safety testing services; conversion of data or documents from physical to electronic media; creating of computer programs for others; creating of home pages for computer networks for others; debugging computer software for others; design and development of computer game software and virtual reality software; design and development of computer hardware; design and development of computer hardware and software; design and development of computer hardware for the manufacturing industries; design and development of computer software; design and development of computers and programs for computers; design and development of electronic data security systems; design and development of wireless computer networks; design and maintenance of computer sites for third parties; design and writing of computer software; design, creation, hosting and maintenance of internet sites for third parties; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; design of computer database; design of computer programs and software for aircraft dashboards; design of computers; design of computers for others; design of optical and micro optical components; designing and developing webpages on the internet for others; designing computer software for controlling self-service terminals; developing computer programs for electronic cash register systems; developing programs for simulating experiments or series of experiments in a virtual optical laboratory; development and creation of computer programmes for data processing; development of computer programs recorded on software designed for use in construction and automated manufacturing (cad/cam); digital compression of computer data; DNA screening for scientific research purposes; document data transfer from one computer format to another; electronic digitizing of photographs into a computer readable media; electronic storage of medical records; electronic storage of photographic images; food safety auditing; genetic testing for scientific research purposes; information on the subject of scientific research in the field of biochemistry and biotechnology; installation, maintenance and repair of computer software; installation, maintenance and repair of Internet access software; installation, maintenance and repair of software for computer systems; integrated scientific research on vermin for greenhouses and harvest crops; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of computer software used for operating filling apparatus and machines; maintenance of software for Internet access; optical laboratories; providing medical and scientific research information in the field of pharmaceuticals and clinical trials; providing scientific information in the fields of climate change and global warming; providing search engines for the internet; scientific research in the field of genetics and genetic engineering; technical support in the form of monitoring global computer network systems; technical support services in the form of troubleshooting of computer hardware and software problems; telemetry monitoring, alerting and record-keeping of space craft; testing of two-way radio systems; writing and updating computer software

Class 44

(6) cardiac telemetry monitoring of a patient's heart rate; managed health care services namely, electronic processing of health care information

Class 45

(7) licensing of computer software; monitoring of burglar and security alarms; monitoring of home security systems; telemetry monitoring of exact location of wild animals

(2) films and sheets made from metal for use in the manufacture of circuit boards

Class 09
(3) acceleration sensors; air traffic control radio equipment; antennas for radio; anti-glare filters for televisions and computer monitors; apparatus for automatic chromatography; apparatus for measuring the thickness of skins; automatic indicators of low pressure in tyres; automatic indicators of low pressure in vehicle tires; automatic indicators of low pressure in vehicle tyres; automatic ion-exchange chromatography apparatus for laboratory use; bicycle flashing safety lights; blank integrated circuit cards; breathing apparatus for underwater swimming; camera containing a linear image sensor; cameras for monitoring and inspecting equipment in a nuclear power station; carbon dioxide detectors; carbon monoxide detectors; cases for electronic diaries; change-over switches for telecommunication apparatus; choking coils for use in electrical apparatus; chromatography apparatus for laboratory use; circuit boards; circuit boards provided with integrated circuits; clip-on flashing safety lights; computer buffers; computer cables; computer central processing units; computer chips; computer display screens; computer fingerprint imaging software; computer fingerprint scanning software; computer games downloadable from a global computer network; computer games for use on mobile and cellular phones; computer hardware; computer hardware and software for setting up and configuring local area networks; computer hardware for telecommunications; computer interface boards; computer interface cards; computer keyboards; computer memory expansion modules; computer mice; computer monitors; computer motherboards and daughterboards; computer mouse; computer mouse pads; computer network adapters; computer network bridges; computer network server; computer network switches; computer operating programs; computer operating recorded programs; computer operating

systems; computer power supplies; computer programmes for document management; computer programs (cad/cam)recorded on software designed for use in construction and automated manufacturing; computer programs for searching the contents of computers and computer networks by remote control; computer programs used for electronic cash register systems; computer scanners; computer screen saver software; computer screens; computer servers; computer software and databases for use in diagnosis, repair and configuration of computers; computer software featuring mathematical algorithms and indices for use in analyzing and evaluating dairy cow health and productivity; computer software for assisting developers in creating program code for use in multiple application programs; computer software for controlling and managing access server applications; computer software for controlling and operating laser rangefinders; computer software for creating and inserting metatags into documents and information; computer software for creating, sending and receiving e-mail; computer software for database management; computer software for digital animation and special effects of images; computer software for displaying orders and driver locations on maps; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for image processing; computer software for managing retail store customer accounts; computer software for medical imaging; computer software for oil and gas reservoir analysis; computer software for optical character recognition; computer software for organizing and viewing digital images and photographs; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for processing digital images; computer software for running development programs and application programs in a common development environment; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for use as a spreadsheet; computer software for use in cancer diagnosis; computer software for use in controlling and improving computer processing speed; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software for use in processing semiconductor wafers; computer software for use in programming facsimile machines; computer software for validating address and zone information; computer software for word processing; computer software that allows transmission of graphics to mobile telephones; computer software to automate data warehousing; computer software to enable the transmission of photographs to mobile telephones; computer terminals; computer utility file compression programs; computer utility file storage programs; computer utility programs for adding or repartitioning a hard disk drive; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computer utility programs for providing diagnostic details on devices installed in a computer system; computer utility programs for testing and evaluating a computer monitor or video display for optimum image and picture quality; computer video games downloaded via the internet; computer whiteboards; computers; computers and computer hardware; computers for managing control devices for aircraft; computers for use in data management; connectors for electronic circuits; coolant-temperature sensors; decision circuits; demagnetizing apparatus for magnetic tapes; desktop computers; diagrams for model aircraft circuits; digital photo-optical systems; digital signage monitors; disk drives for computers; dispersion shifted optical fibres; dive computers; downloadable computer graphics; downloadable electronic games; e-commerce software to allow users to perform electronic business transactions via a global computer network; electric and electronic video surveillance installations; electric capacitors for telecommunication apparatus; electric resistors for telecommunication apparatus; electrical and electronic burglar alarms; electrical and optical cables; electrical industrial controls for monitoring waste water treatment; electrical transformers for telecommunication apparatus; electricity conduits; electrodes for laboratory research; electrolysis apparatus for producing

hydrogen and oxygen from water; electronic agendas; electronic book readers; electronic books; electronic cables; electronic card readers; electronic chips for the manufacture of integrated circuits ; electronic circuit board; electronic circuits; electronic computers; electronic conductors for fuel cells; electronic conductors for integrated circuits; electronic connectors for circuit boards; electronic connectors for loud speakers; electronic connectors for video recorders; electronic control systems for automobile brakes; electronic control systems for room locking systems; electronic controllers for flight control systems; electronic controllers for furnaces; electronic databases containing information in the field of allergies recorded on computer media; electronic diaries; electronic door closing systems; electronic encryption units; electronic equipment for mine detection; electronic frequency converters for high velocity electro motors; electronic glossaries; electronic industrial controls for digital timers; electronic industrial controls for motion failure detectors; electronic integrated circuits; electronic lock assemblies; electronic machines for reading credit cards and recording financial operations; electronic organizers; electronic payment terminals; electronic pens; electronic personal organisers; electronic personal organizers; electronic plotters; electronic pocket translators; electronic semi-conductors; electronic sensors for measuring solar radiation; electronic speed controllers; electronic tags for goods; electronic toll smart cards; electronic warning bells; external computer hard drives; filters for radio interference suppression; fire and smoke detectors; fire extinguishing apparatus for automobiles; firmware for remote monitoring of hardware; flashing safety lights for traffic cones; floppy discs drives for computers; galena crystal detectors for use in electronics; glassware for scientific experiments in laboratories; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; graphite electrodes; handheld computers; hand-held electronic dictionaries; highway safety cones; indicator lights for telecommunication apparatus; integrated circuit electronic toll cards; integrated circuit hotel room key cards; integrated circuit identification cards; integrated circuit modules; integrated circuits; integrated circuits incorporating algorithms for use in processing television signals; interface cards for data processing equipment in the form of printed circuits; internet newsletters; lan [local area network] computer cards for connecting portable computer devices to computer networks; laptop computers; large scale integrated circuits; lcd monitors; led underwater lights for use as a safety beacon for scuba divers; light-emitting electronic pointers; liquid level sensors; luminous safety beacons for use as a personal locator; magnetic mount flashing safety lights for vehicles; magnetic object detectors; magnetic tape units for computers; magneto-optical pens; manual telegraph apparatus; marine luminous safety beacons; masts for wireless aerials; metal detectors; metal detectors for industrial or military purposes; microphones for telecommunication apparatus; motion detectors; motion sensors; mounting racks for computer hardware; navigation apparatus for vehicles in the form of on-board computers; netbook computers; nonlinear optical fibres; notebook and laptop computers; notebook computer carrying cases; oil level sensors; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROMs; optical amplifiers; optical cables; optical character readers; optical character recognition apparatus; optical condensers; optical fiber cables; optical fibres; optical filters for screens; optical frames; optical glass; optical inspection apparatus for analyzing defects on surfaces of wafers and printed circuits; optical inspection apparatus for inspecting the circuitry used in cell phones; optical inspection apparatus for inspection of food; optical lenses; optical multiplexers; optical reflectors; optical scanners; optical semiconductor amplifiers; optical sensors; optical shutters; optical spectacles; optical switches; personal computers; pocket computers for note-taking; pocket-sized electronic calculators; polarisation maintaining optical fibres; pollutant sensors; portable radios; pressure sensors; printed circuit boards; printed circuits; printed electronic circuits for apparatus and cards bearing integrated circuits; printers for computers; printers for use with computers; printing fonts that can be downloaded provided by means of electronic transmission; programmable electronic

data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; proximity sensors; radar detectors; radio and television aerials; radio frequency connectors; radio pagers; radio receivers; radio receivers and radio signal tuners; radio receivers and transmitters; radio relay cables; radio sets; radio transceivers; radio transmission towers; radio transmitters; radio transmitters and receivers; radios; radios and telephones; radon detectors; recorded computer operating programs; reflective safety bands to be worn on the body; reflective safety vests; relays for radio and TV stations; repeaters for radio and television stations; safety boots; safety contact plugs; safety goggles; safety harnesses; safety markers; satellites for scientific purposes; scientific apparatus for determining the water content in petroleum products; scientific prisms; secure terminals for electronic transactions; semiconductor integrated circuits; short range radios; single-channel radio communication machines and apparatus for fixed stations; smoke detectors; software for computer aided design CAD; software for computer aided mechanical design; software for ensuring the security of electronic mail; sound filters made of cloth, for radio apparatus; spectrograph apparatus; tablet computers; temperature sensors; thermal sensors; timing sensors; transparency projection apparatus; two-way radios; vacuum tubes for radios; vehicle radios; vibration sensors for installation in wind mill housings; voltage monitor modules; wafers for integrated circuits; warning triangles for road safety; water ski safety vests; wireless computer mice; x-ray apparatus for detecting moisture in building material; x-ray apparatus for screening luggage at airports

Class 10

(4) anesthetic delivery apparatus; apparatus for artificial respiration; apparatus for blood analysis; apparatus for cardiac defibrillation; apparatus for taking blood; apparatus for taking blood samples; apparatus used in implementing diagnosis tests designed to detect the abnormal prion protein; arterial blood pressure measuring apparatus; artificial respiration apparatus; automatic vaccination apparatus; blood drawing apparatus; blood glucose monitors; blood pressure measuring apparatus; blood pressure monitors; blood testing apparatus; blood transfusion apparatus; body-fat monitors; breast pumps; cardiac defibrillation electrodes; cardiac electrodes; diabetes monitoring equipment for sampling and analyzing blood and body tissue; electrodes for external defibrillators; electrodes for medical use; electronic medical devices implanted in the eye to help restore vision; electronic muscle stimulators; heart monitors; heart rate monitors; heartbeat measuring apparatus; high frequency electromagnetic therapy apparatus; hydrophilic guide wire to track catheters; incubators for medical purposes; lead electrode reconfiguration algorithm sold as an integral component of a medical cardiac stimulation device; low frequency electric therapy apparatus; magnetic resonance CT apparatus; magnetic resonance imaging (MRI) diagnostic apparatus; medical apparatus and instruments in the field of neurovegetative reactivity; medical apparatus for facilitating the inhalation of pharmaceutical preparations; medical electrodes; medical ultrasound apparatus; medical x-ray apparatus; microdermabrasion apparatus; obstetric apparatus for cattle; oxygen monitors; patient safety restraint straps; patient safety restraints; phototherapeutic apparatus for medical purposes; polymerisation apparatus for dental purposes; prosthetic sockets used to fasten prosthetic limbs to the body; pulse rate monitors; static electric therapy apparatus; ultrasonic medical diagnostic apparatus; x-ray apparatus for dental imaging; x-ray apparatus for medical purposes; x-ray apparatus for medical use

Class 11

(5) safety lamps for underground use

Class 16

(6) computer manuals featuring software encryption algorithms

Class 28

(7) arm bands featuring motion sensors and gesture control software for use with interactive video games; armbands featuring motion sensors and gesture control software for use with interactive video games; tennis ball throwing apparatus

SERVICES

Class 35

(1) auctioning via telecommunication networks; computer file management; providing home shopping services of fitness equipment via the Internet; subscription to an Internet telematics, telephone or computer service; tracking and tracing of packages in transit

Class 38

(2) electronic mail; electronic mail services through wired and wireless access, paging services, wireless digital messaging services; internet radio broadcasting services; internet telephony services; leasing access time to a computer database in the field of community social events; leasing access time to an electronic bulletin board in the field of community social events; mobile radio telephone services; news agency services via a global computer network; operating a wide-area network (WAN); operation of an electronic bulletin board containing information in the field of nutrition; operation of an electronic bulletin board in the field of community social events; paging by radio; providing chat lines utilising the internet; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; providing multiple user access to a computer network; providing user access to a global computer network; providing user access to global computer networks; providing voice chat services; provision of access to a global computer network; provision of access to the Internet; radio/ telephone paging services; rental of access time to global computer networks; streaming of audio and video via the Internet featuring music, movies, news, and sports; telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes; telecommunication routing and junction services; telecommunications routing and junction services; telematic in-vehicle communication service providing wireless vehicle navigation and tracking; telephone carrier services provided by means of fibre optic cables, telephone lines, radio and microwave transmission, satellite transmission; wireless digital messaging services; wireless facsimile mail services; wireless fax services; wireless telephone services; wireless voice mail services

Class 40

(3) generating electricity; generation of electricity; generation of electricity from solar energy; providing custom-built computer workstations

Class 41

(4) training for handling scientific instruments and apparatus for research in laboratories

Class 42

(5) calibration of electronic equipment; computer aided graphic design; computer aided imaging; computer animation production services; computer design services; computer diagnostic services; computer disaster recovery planning; computer graphics design services; computer graphics digitization; computer graphics imaging; computer hardware and software design; computer network configuration services; computer network design for others; computer network security services; computer programming; computer programming and maintenance of computer programs; computer programming and software design; computer programming consultancy; computer programming for others; computer programming in the medical field; computer programming

services; computer security consultancy; computer site design services; computer software consultancy; computer software consulting; computer software design; computer software design and updating; computer software design for others; computer software installation and maintenance; computer software project management services; computer systems design; computer systems integration services; computer systems monitoring services; computer website design; consumer product safety testing services; conversion of data or documents from physical to electronic media; creating of computer programs for others; creating of home pages for computer networks for others; debugging computer software for others; design and development of computer game software and virtual reality software; design and development of computer hardware; design and development of computer hardware and software; design and development of computer hardware for the manufacturing industries; design and development of computer software; design and development of computers and programs for computers; design and development of electronic data security systems; design and development of wireless computer networks; design and maintenance of computer sites for third parties; design and writing of computer software; design, creation, hosting and maintenance of internet sites for third parties; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; design of computer database; design of computer programs and software for aircraft dashboards; design of computers; design of computers for others; design of optical and micro optical components; designing and developing webpages on the internet for others; designing computer software for controlling self-service terminals; developing computer programs for electronic cash register systems; developing programs for simulating experiments or series of experiments in a virtual optical laboratory; development and creation of computer programmes for data processing; development of computer programs recorded on software designed for use in construction and automated manufacturing (cad/cam); digital compression of computer data; DNA screening for scientific research purposes; document data transfer from one computer format to another; electronic digitizing of photographs into a computer readable media; electronic storage of medical records; electronic storage of photographic images; food safety auditing; genetic testing for scientific research purposes; information on the subject of scientific research in the field of biochemistry and biotechnology; installation, maintenance and repair of computer software; installation, maintenance and repair of Internet access software; installation, maintenance and repair of software for computer systems; integrated scientific research on vermin for greenhouses and harvest crops; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of computer software used for operating filling apparatus and machines; maintenance of software for Internet access; optical laboratories; providing medical and scientific research information in the field of pharmaceuticals and clinical trials; providing scientific information in the fields of climate change and global warming; providing search engines for the internet; scientific research in the field of genetics and genetic engineering; technical support in the form of monitoring global computer network systems; technical support services in the form of troubleshooting of computer hardware and software problems; telemetry monitoring, alerting and record-keeping of space craft; testing of two-way radio systems; writing and updating computer software

Class 44

(6) cardiac telemetry monitoring of a patient's heart rate; managed health care services namely, electronic processing of health care information

Class 45

(7) licensing of computer software; monitoring of burglar and security alarms; monitoring of home security systems; telemetry monitoring of exact location of wild animals

CLAIMS

Used in CANADA since June 02, 2016 on goods and on services.
